RESEARCH METHODOLOGY AND STATISTICS

Time : Three hours

Maximum : 100 marks

Answer any FIVE questions.

(5 × 20 = 100)

1. Explain about scope of statistics.
2. Discuss about characteristics of sample a good sample design.
3. Explain about relationship between mean and median.
4. Calculate the standard deviation from the following observation.

240.12    240.13    240.15    240.12    240.17

240.15    240.17    240.16    240.22    240.21

5. Calculate mean deviation from the following series:

X	10	11	12	13	14
f	3	12	18	12	3

6. Calculate coefficient of correlation from the following value are obtained:

X	100	200	300	400	500	600	700
Y	30	50	60	80	100	110	130

7. Explain about method of data collection.
8. Describe about data processing and analysis.
